This risk assessment is based on Guidance for Full Opening: Schools

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

Covid-19 is an illness that can affect your lungs and airways. Symptoms can be mild, moderate, severe or fatal. Staff who are unable to work at home or who are supervising pupils can continue in their work place provided it is safe to do so and this means taking precautions against the transmission of Covid-19 and following the Government's "Social Distancing" guidelines and *Coronavirus (COVID-19): Implementing protective measures in education and childcare settings*. This risk assessment is for teaching and support staff and should be adapted by each of MNSP schools. Specialist staff, eg site and cleaning staff, will have a separate risk assessment. The document must be adapted to reflect the unique circumstances in your school. You need to add any additional controls and indicate who is responsible, by when and indicate when in place (ie you must complete the last 3 columns) There is an expectation that staff will work at a distance from each other. If staff are working totally alone in the school, please ensure that a lone-working assessment has been undertaken and safeguards put in place for that person. You will need to review other risk assessments you have in place, for example use of outdoor play equipment and practical lessons.

**HAZARD: Spread of Covid-19 Coronavirus**

**Who Might be harmed:**

- Staff
- Pupils
